Reviews

This ebook is very gripping and fascinating. Sure, it is engage in, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Ms. Ora Buckridge)

SPACE COMMERCIALIZATION: PLATFORMS AND PROCESSING

American Institute of Aeronautics & Astronautics. Hardback. Book Condition: new. BRAND NEW, Space Commercialization: Platforms and Processing, F. Shahrokhi, etc., space commercialization activities are mainly in the areas of telecommunication and Earth observation. The commercial use of space for microgravity processing remains elusive. The reasons for this are the knowledge base for microgravity processing is inadequate and flight opportunities and hardware are too expensive, lengthy, and risky to provide a reasonable return on investment. Furthermore, previous unrealistic predictions of large benefits from space manufacturing of crystals, biomaterials, and other materials have created a negative image of microgravity opportunities, especially in connection with the justification of manned space flights and the construction of a large space infrastructure. This volume reports on the progress in Space Commercialization activities.
